

## Planning & Carrying Out Investigations Template

**1. Materials. What do you need for your investigation? Resources, tools, and equipment:**

*Do you think you need other tools or materials? Develop a Materials List in consultation with your teacher.*

**2. Testable Question. What do you hope your experiment will reveal? Science question we will try to answer:**

**3. How will your investigation work? Experimental Set-up** (Label equipment and materials used)

A large, empty rectangular box with a thin black border, intended for drawing the experimental set-up. The box is currently blank.

**4. Experimental Steps** (What we will do, listed in the order in which we will do it, and what we will measure or observe)

**5. Expected Outcome** (What we predict will happen)

*Stop here, and check in with your teacher before proceeding!*

**7. What did your investigation reveal? What did you learn?**

**8. What new questions did this bring up?**

**Agricultural Plan Claim Template**

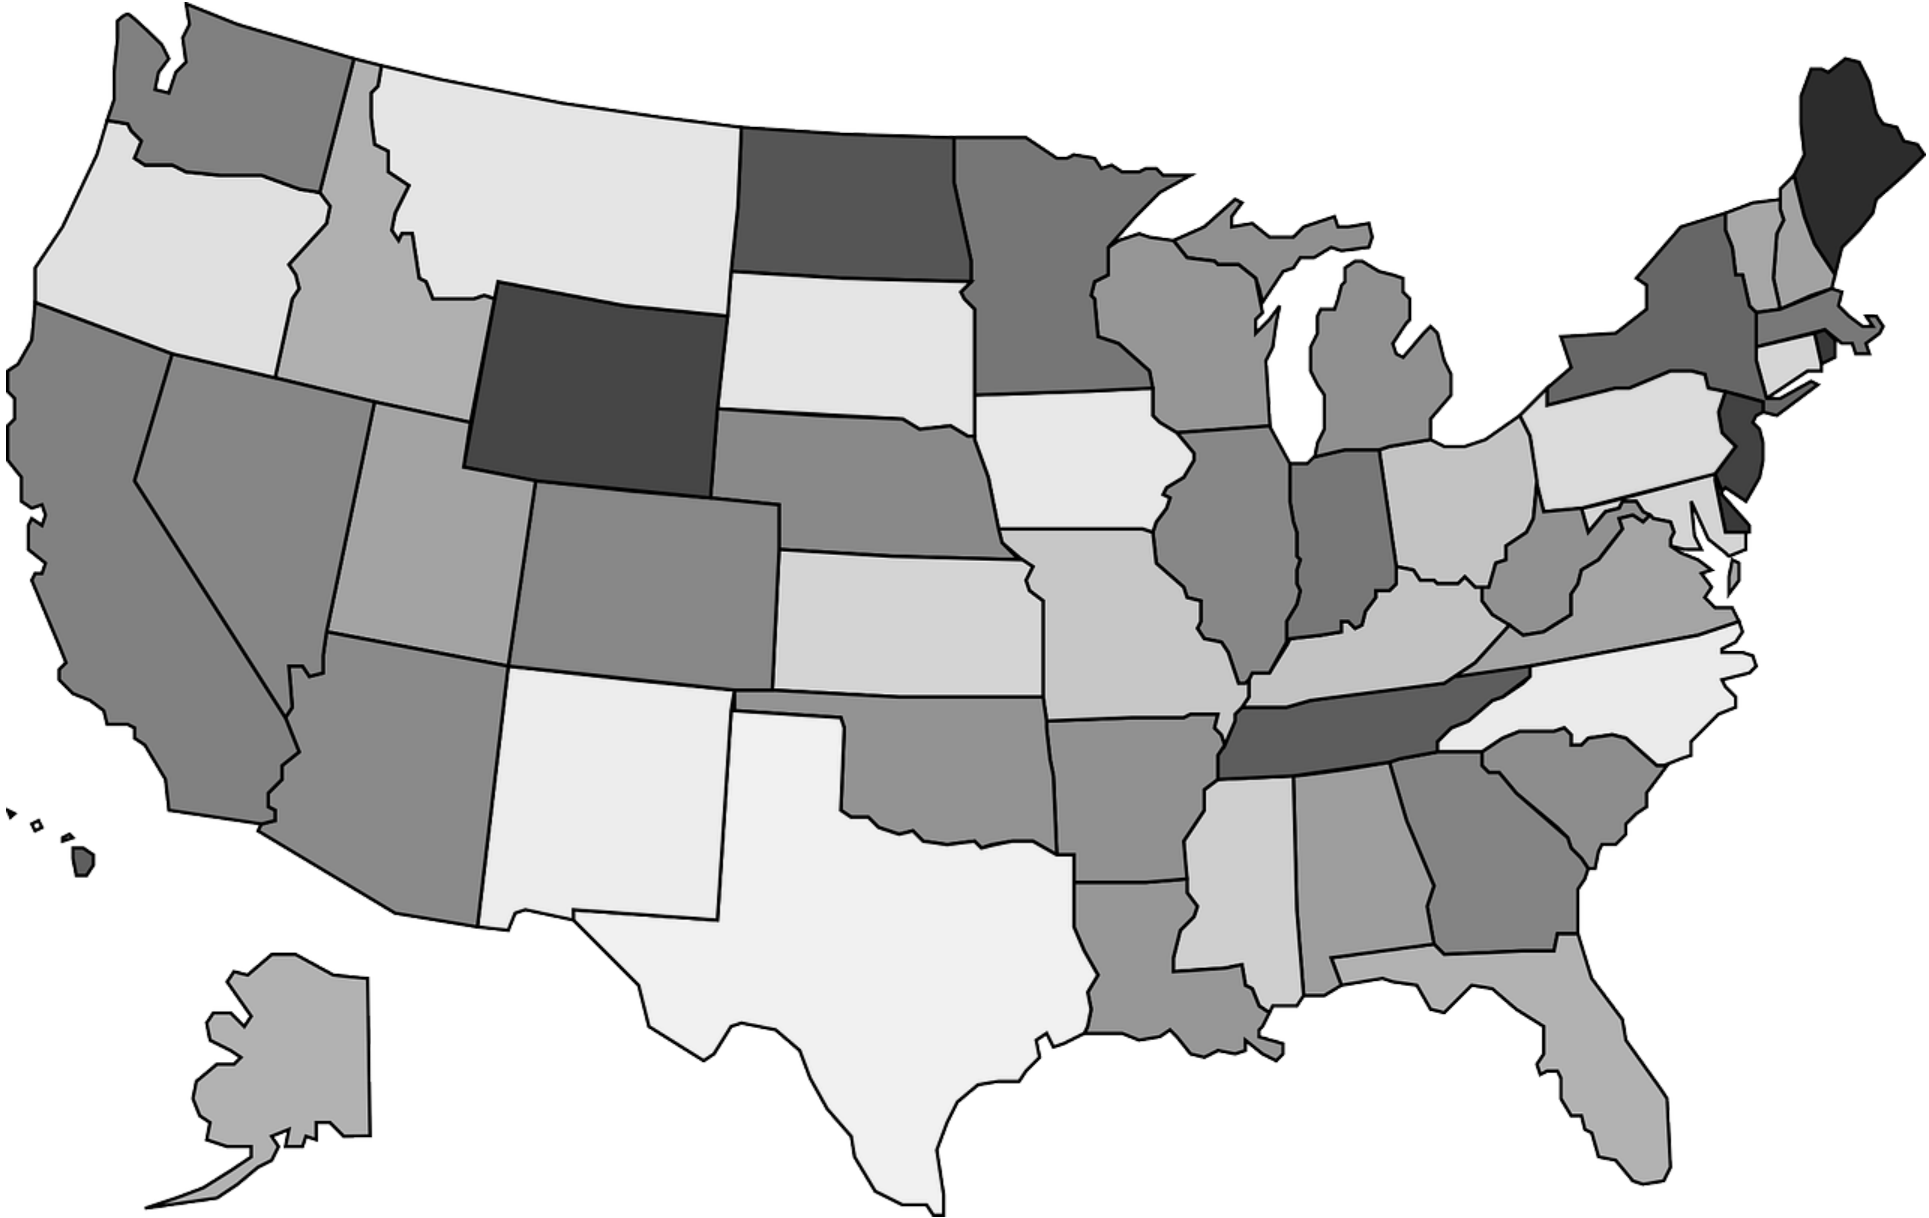

**Claim(s):**

**Evidence:**

**Calculations:**

**Assumptions:**

**Maps For Food Exploration**  
**United States Map (Mark your location first!)**
